## PROFILE

I am an experienced software developer with a proven track record in C#, Java, JavaScript, SQL, and .NET platforms. With a knack for precision and a flair for innovation, I've consistently delivered cutting-edge solutions in high-pressure environments. My portfolio includes streamlining complex systems, boosting efficiency, and driving tangible results.

## EMPLOYMENT HISTORY

### .NET Core Developer at Canadian Bar Association, Remote

January 2023 — Present

- Worked with stakeholders to understand software needs, planned implementation steps, and provided weekly progress updates.
- Elevated software user-friendliness, instating multiple enhancements that amplified organizational efficacy.
- Managed web content and orchestrated feature integration using the .NET Core framework.

### Tier 2 Forms Programmer at PBS Systems Inc, Calgary

April 2019 — January 2023

- Directed forms programming during new dealership installations, tailoring solutions to precise specifications.
- Automated data processing and error tracking through adept utilization of VB.NET, Visual Studio, and SQL Server.
- Guided and nurtured junior programmers, maintaining quality benchmarks through performance metrics and comprehensive code assessments.

### Website Developer at All-In-One Digital, Calgary

December 2018 — April 2019

- Successfully created and deployed over 10 custom websites, overseeing the entire project life cycle from ideation to execution.
- Collaborated closely with cross-functional teams to integrate cutting-edge design elements, resulting in enhanced visual appeal and user engagement.
- Assisted in the implementation of SEO strategies, amplifying online visibility and driving increased organic traffic to client websites.

## EDUCATION

Information Technology - Majoring in Software Development, Southern Alberta Institute of Technology (SAIT), Calgary

September 2016 — July 2018
